

Play the music for your kids at home/in the car!

Use our 'Music Together' APP!
The APP is available on the APP Store.

Instructions: Find the menu on the top right hand corner, create a login (and share that login with your family or babysitters!). Then go to the homescreen to view and listen to your "collections" of music! Every semester, you receive NEW music! You don't repeat until it has been three years!

To add a new collection, tap "New Collection" under "Collections" on the app home screen and enter the access code that is printed inside your songbook cover. You can also add your code to access your music from the menu at the top right hand corner. You can start collecting all the Music Together collections! Enjoy!
